## REFURBISHED / NEW SYSTEMS – Savings Up to 50%!!!

AIS is very well known for offering the best Refurbished / New paint finishing systems anywhere. Although we love to build all new systems, we understand that not every customer is looking to make as large of an investment into their finishing system. As a result, we have maintained the Largest inventory in the world of paint finishing equipment. AIS treats each Refurbished system as though it were all new. Each system is custom-designed and fully engineered to meet your requirements. The equipment is thoroughly refurbished with Many new components and carries the same warranty as an all new system.

# ABOUT US

AIS Finishing Systems is a leading supplier of turnkey industrial finishing and coating systems throughout North America. We have more than 30 years of experience in the design, manufacture, and installation of finishing systems to include: powder coating, liquid coating, electrocoating, pretreatment washers, process ovens and conveyor systems. AIS is also home to the world's largest inventory of used powder coating, e-coating equipment and general finishing equipment.

We offer our customers all new systems designed & fabricated by AIS, refurbished/new systems, complete installation, start-up and training, field service, removal, relocation and upgrading services for existing equipment. At AIS, we consider important factors such as product size, production rates, product handling, energy efficiency, floor space, and budgets in order to provide the fastest and best designed layouts, systems, and delivery times in the industry. We pride ourselves in supplying quality equipment at a competitive price with on-time delivery.

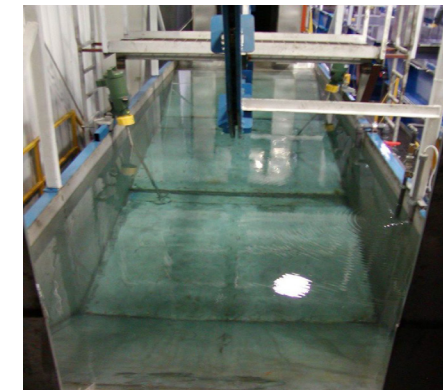

# FACILITIES

AIS is based in Berlin, WI and over the years we have expanded greatly. As a second-generation, small-town, and family-owned company we know the importance of hard work and building long-lasting relationships. We have increased our market share each year in business and used our success to help support our local community. We have expanded from our original 12,000 sq/ft facility to a second 28,000 sq/ft operation in 2012, and again in 2019 to having over 230,000 sq/ft of office and manufacturing space.

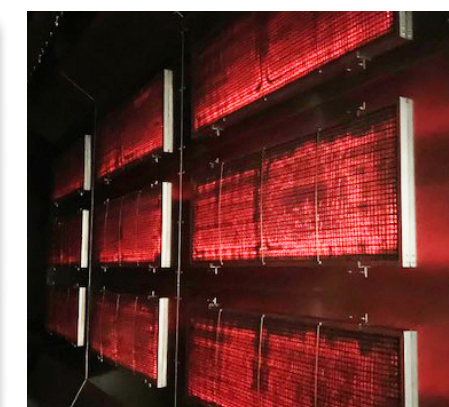

# PRETREATMENT WASHERS

AIS Finishing Systems manufactures a wide variety of industrial pretreatment washes to prepare your products for painting, phosphating, rust prevention, and specialty finishing processes. At AIS, our focus is on building long-lasting, stainless-steel washers that are built to the top-industry standards and that will maintain peak performance while always looking good.

# INDUSTRIAL FINISHING & PROCESS OVENS

AIS offers a wide variety of industrial process ovens to include; convection, gas catalytic, and electric infrared ovens. Whether you require a monorail dry-off or curing oven, batch oven or specialty oven, AIS can provide the system you require in an affordable and timely fashion.

# CONVEYOR SYSTEMS

AIS custom designs and provides overhead monorail, power and free, and floor-mounted conveyor systems to meet your needs.

# ENVIRONMENTAL ROOMS

Air conditioned, humidity controlled, and custom designed environmental rooms are offered by AIS to provide the ideal conditions for powder coating.
